Education Department

Programme Specific/ Course Specific Outcome:

Title of the Course: Foundation of Educational Theories and Principles

Course Code: G 101

- To acquaint the students with scientific and sound principles and theories of education.
- To make students understand the concept, nature and scope of education.
- To help students gain knowledge about aims of education.
- To help students know the dimensions of education, discipline and freedom in education and modern trends in education.

Title of the Course: Educational Psychology

Course Code: G 2.01

- To make the students understand the relationship between education and psychology.
- To explain the need of educational psychology in teaching learning process.
- To understand the concept of motivation, memory, attention and interest
- To understand the concept of intelligence, personality and adjustment mechanism.

Title of the Course: Development of Education in India

Course Code: G 3.01

- To acquaint the students with the Ancient and Medieval system of education in India.
- To provide knowledge about the development of education in India during the British period.
- To examine and analyse the education system in India after independence.
- To provide knowledge on development of education in Assam

Title of the Course: Sociological foundations of Education

Course Code: G 4.01

- To acquaint the students with education as a social process.
- To help students understand social change and development.
- To develop social habits and attitudes to make them socially adjustable.

Title of the Course: Emerging Issues and Education

Course Code: G 5.01

- To acquaint the learner with emerging issues in education.
- To develop in students basic understanding regarding students' indiscipline.
- Develop awareness and understanding about literacy programme, women empowerment, human rights, and globalisation of education.
- Knowledge of national integration and international understanding.

Title of the Course: Educational Measurement and Educational Statistics

Course Code: G 5.02

- To help the students to acquire knowledge of the concept of measurement and evaluation in education.
- To provide knowledge about use of different types of educational tests and construction of educational and psychological tests.
- To provide knowledge of application of statistics in education

Title of the Course: Educational Technology

Course Code: G 6.01

- To acquaint the students to understand the concept, scope and objectives of educational technology.
- To make the students understand the teaching, instructional and behavioural technology and use of computer and internet in educational technology.

Title of the Course: Environmental and Population Education

Course Code: G 6.02

- To enable the students to understand the concept, scope, importance of environmental education.
- Understand the programmes of environmental education at different levels of education.
- To enable the students to understand the effect of population growth on poverty, health and hygiene.
- Understand the importance of population education in school levels.

Title of the Course: Foundation of Educational Theories and Principles

Course Code: M 1.01

- To make the students acquainted with the scientific and sound principles of education. It will impart the concept, nature and scope of education.
- To help students to gain three dimensional knowledge about the education i.e. the learner, the teacher and the curriculum.
- To help students acquire knowledge about the concept of discipline and freedom.

- To create awareness among the students about the latest trends and current educational thoughts.

Title of the Course: Educational Psychology

Course Code: M 1.02

- To help the students to understand the relation between education and psychology and different methods of educational psychology.
- To explain the need of educational psychology in teaching and learning process.
- To help students understand the concept of learning process, memory, attention, instinct, emotion and intelligence.

Title of the Course: Development of Education in India

Course Code: M 2.01

- To help students acquainted with ancient and mediaeval system of education in India. It will impart the concept, nature and scope of education.
- To help the students to understand the development of education in India during the British Period.
- To acquaint the students regarding the development of education in India during post-independence period.
- To enable students to understand the development of education system in the state of Assam.

Title of the Course: Sociological Foundation of Education

Course Code: M 2.02

- To acquaint the students with education as a social process.
- To inculcate the knowledge of education from social perspective view and to understand education as a determinant of social change and development.
- To help the students develop good social habits and will make them socially attributable.

Title of the Course: Emerging Issues and Education

Course Code: M 3.01

- The learner will able to awareness and understanding about different literacy programmes, woman empowerment, Human rights, globalization, Vocationalization of secondary education.
- To enable to understand the need and importance of national integration and international understanding and the role of education in promoting them.
- To make students understand about the concept, importance, methods and programmes of peace education.

Title of the Course: Measurement and Evaluation in Education

Course Code: M 3.02

- To make the learner able to understand the knowledge of the concept of measurement and evaluation in education. To make the learner able to understand the different types of educational tests and their uses.
- To enable the learner to understand the characteristics of a good measuring instrument and the procedure of constructing educational and psychological tests.

- To enable the learner to understand the intelligence tests, personality test, aptitude, interest and attitude test and educational achievement test.

Title of the Course: Educational Technology

Course Code: M 4.01

- To enable the learner to understand the basic components of educational technology in 21st Century.
- To help students understand the concept, scope and objectives of Educational Technology, teaching technology, behavioural technology and instructional technology.
- To help the learner understand about communication, process, teaching aids, system approach and use of Computer and internet in education technology.
- To make learner able to understand the use of various modern technology that has been developed recently in education.

Title of the Course: Environmental Education and Population Education

Course Code: M 4.02

- To enable the learner to understand the concept, scope and importance of environmental and population education.
- To make the learner understand the programmes of environmental education at different levels.
- To enable the learner to understand the effects of population on poverty, health and hygiene.

Title of the Course: Philosophy of Education

Course Code: M 5.01

- To make the learners understand the relationship between philosophy and education, acquire knowledge about the three major philosophies of education.
- To provide knowledge about three major philosophies: Idealism, Naturalism, and Pragmatism.
- To provide knowledge about the Indian schools of Philosophical thoughts: Vedic, Islam and Buddhist thoughts.

Title of the Course: Educational Thinkers: Oriental and Occidental

Course Code: M 5.02

- To enable the students understand the philosophy of life of different educational thinkers and their contribution to present day educational thought.
- To enable students to learn about the western and Indian thinkers on aims of education, curriculum, role of teacher, role of students, methods of teaching and discipline.

Title of the Course: Teachers' Education

Course Code: M 5.03

- To acquaint students with the concept, aims and scope of teacher education in India.
- To provide knowledge of different teacher education programmes in India.
- To provide knowledge of skill based and competency based teacher education, professional ethics and accountability of teachers.
- To provide knowledge about different organizations providing teacher education in India.

Title of the Course: Teaching Learning Method and Pedagogy**Course Code: M 5.04**

- To develop knowledge and understanding on Teaching principles and Methods of teaching.
- To make learners aware of teaching devices such as explanation, illustration, questioning, narration drill and review.

Title of the Course: Statistics in Education**Course Code: M 5.05**

- To develop detail knowledge on basic concepts of statistics and uses of different statistical procedures in education such as Normal Probability , Variability, Correlation etc.

Title of the Course: Practical**Course Code: M 5.06**

- To develop scientific attitude through experimentation in various psychological tests mainly to measure personality, level of attention, memory and application of trial and error Learning.

Title of the Course: Developmental Psychology**Course Code: M 6.01**

- To help learners understand the students about the basic concepts of development and growth.
- To male learners able to forecast how heredity and environmental factors affecting pre-natal development.
- To acquaint learners with the development aspects during infancy, childhood
- and adolescence with special focus on its different development like social, emotional and personality development.

Title of the Course: Continuing Education and Distance Education**Course Code: M 6.02**

- To make the students understand about the concept of continuing education, its relevance to the changing society and different methodologies and techniques of continuing education.
- The make the students understand the development of Adult Education in India, kinds of Adult Education Programmes in India.
- To help students understand the meaning, characteristics, merits, demerits different forms of instructional strategies of distance education, and its growth in India.

Title of the Course: Special Education**Course Code: M 6.03**

- To help the students to understand the meaning, importance of special education and the different government policies, legislations regarding persons with disabilities.
- To familiarise the different types of special children with their behavioural characteristics, educational provisions and support service.

Title of the Course: Guidance and Counseling**Course Code: M 6.04**

- To help the students to acquaint the concept, nature, scope, need and importance of guidance.

Paper	Course	Outcome
		<ul style="list-style-type: none">➤ To familiarize them with the different types of guidance programmes.➤ To enable the students to understand the concept, nature, scope, need and importance and techniques of counseling.

Title of the Course: Educational Management and Administration**Course Code: M 6.05**

- To help students understand the basic concepts of management, organization and administration.
- To acquaint students with the knowledge on types, principles and functions of educational management, educational supervision, institutional planning and educational administrative structure of India in general and Assam in particular.

Title of the Course: Practical**Course Code: M 6.06**

- To help the students to undertake the project work on stipulated area including – identification of problem, formulating the objectives, related literature, drawing hypothesis (wherever possible), field identification, sources of data collection, analysis, drawing conclusion and reporting.
- To enable the students to reinforce the experiential and contextual learning.
- To inculcate the problem solving and analysis skills of the learner and also help them find the educative value.

English Department

Paper	Course	Outcome
Course Code: 1.1	The social and Literary Context: Medieval and Renaissance	1.This paper acquaints students with the contexts of the English literary tradition. 2. Students are expected to read and relate the circumstances that influenced, shaped and contributed to the process of literary production from the medieval period to the Renaissance.
1.2	Medieval and Renaissance: Poetry and Plays	In this paper students will study poetry and drama that emerged against the literary and historical contexts studied in the previous paper that will examine the student's ability to identify and elaborate on lines and passages from the starred texts.
2.1	The Social and Literary Context:: Restoration to the Romantic Age	1. The objective of this paper is to acquaint students with the contexts of the English literary tradition from the Restoration of Charles II and the reopening of the theatres in 1660 to the Age of Romanticism. 2. Students are expected to understand the circumstances that influenced, shaped and contributed to the process of literary production and topics identified in this paper are necessary and useful markers.
2.2	Restoration to Romanticism English Poetry, Drama and Fiction:	In this paper students will have the opportunity to study the literary texts that reflect the socio-cultural and political interests of the period studied in Paper III and also examine the ways in which texts take part in and are produced by urgent issues of a time.
3.1	The Social and Literary Context :The Victorian World	1. This paper seeks to acquaint students with the contexts of the English literary tradition as it develops in the Victorian age. 2. Students are expected to study the social and literary history of the Victorian world as a necessary preparation for the texts that they will encounter in Paper VI.
3.2	Victorian Poetry and Fiction	1. Students will here encounter the poetry that is characteristic of the Victorian period – forms like the dramatic monologue, the love poem, pre-Raphaelite experiments and the beginnings of modern poetic experience in Hopkins.

		2. They will also find examples of the great Victorian fiction that closely followed the social concerns of the period and experimented with narrative voice and perspective.
4.1	The Social and Literary Context: Modernism and After	This paper will acquaint students with the circumstances that shaped the processes of literary production from the twentieth century to the present.
4.2	English Poetry and Fiction: Modernism and After	1. This paper brings to the student a selection of the poetry and fiction of the modern and postmodern eras that is representative of important trends, critical shifts and formal experimentation 2. In keeping with the internationalization associated with these cultural phases the selection is no longer strictly British but includes examples from other literary cultures like the American and the Latin American.
5.2	Modern Drama II	1. Students are expected to approach the texts in this paper in the light of the ideas, issues and texts in Paper 9.
5.3	The Essay in English: Addison to Dickens	1. This paper introduces students to the literary form of the essay through a selection of representative texts from the 18th and 19th centuries. 2. Students will have to acquaint themselves with the development of the form from the time of Francis Bacon (1561-1626), and examine the emergence of the periodical essay in the 18th century in the hands of Addison and Steele particularly because of favourable conditions like the increase in literacy rates and the appearance of a large number of periodicals which provided a forum for the articulation of views on a variety of topics.
5.4	The Essay in English: The Twentieth Century	1. This paper will introduce students to developments in the genre of the essay in the 20th century. 2. Students will note how the genre has adapted in order to address a variety of contemporary issues and

		become the vehicle for representing personal experiences, moved into literary, social, and cultural criticism and engaged in polemic and persuasion.
5.5	Life Writing: Biographies, Memoires and Letters	<p>1. This paper will enable the students to appreciate the element of narrativization in seemingly linear, transparent, straight forward accounts of lives of significant people set down in memoirs, biographies and letters.</p> <p>2. This paper will try to have that sense of narrativization which informs all that text, which underscore the ‘literary’ quality of all texts by looking at various forms of life-writing such as memoirs, letters and biographies.</p>
5.6	Women's Writing	<p>1. This paper on writing by women introduces students to a body of literature that has emerged with growing feminist awareness of women’s lives and their representation.</p> <p>2. Students will address women’s issues and interests, the condition of women in the place and time of the writer and uses and subversions effected in the genre of the novel by women in Section I.</p>
6.1	Literary Criticism	<p>1. This paper acquaints students with some of the key ideas of Western literary criticism from Graeco-Roman antiquity to the modern period and expects them to examine the implications of ideas, and orientations that have marked the history of literary criticism.</p> <p>2. The paper is designed to present students with the opportunity to study key concepts associated with the names of significant thinkers in this history.</p>
6.2	Twentieth Century Criticism and Theory	This paper introduces students to key ideas and texts that will familiarize students with the intellectual shifts in the reading of culture, language and literature in the 20th century and the emergence of

		Theory and acquaint them with common concepts and notions that, they are likely to encounter in the reading of theory.
6.3	Nature	1. This paper seeks to explore the process through which language and literature – as manifestations of culture – are produced by the interconnections between both nature and culture; it addresses nature not just as a passive background in literary texts but as a central presence determining the dynamic interpretations of the text itself.
6.4	Western Mythology: Introducing Classical & Judaeo-Christian Myth	1. This paper is an introduction to the study of Classical and Judeo-Christian myth and their recurrence in later social, historical, cultural and literary contexts.
6.5/6.6 Option A	Indian English Literature	The two papers in this Option introduce students to the distinctive literature produced in India in the wake of English education, first under British colonial rule and then after independence.
Option B:	American Literature	Introduce students to the distinctive flavour of American Literature.
Option C	Women And Literature	Women and Literature I and II seek to familiarize students with literature written by women and to acquaint them with feminist theory so as to make available the necessary interpretive apparatus to read such texts.
Option D:	English Language and Linguistics	This paper deals with the different aspects of Linguistics including Phonetics and Structural Linguistics.
Option E:	African Literature in English	This paper offers an optional course in African literature especially in the field of novels, short stories, poetry and essays.

Option F	Book into Film	This paper aims to show the linkages between the epic-narrative, the notion of story-telling and drama in the two fields, and also indicates how the two contribute to each other in terms of cultural interaction and re-readings.
